NUMBER 37

Greatly Loved Physician Called

**Dr. J. M. Bentley, Native Whitesburg Physician
and Chairman of the Letcher County
Public Health Department,
Passes Away**

WHITESBURG MOURNS GREAT LOSS

Another great and useful citizen of Whitesburg and Letcher county has been called across life's stormy seas away from the world. He had a noble family, away as its counsellor, its guide and a noble staff, away from the hundreds of those who looked to him to allay their suffering, dry their tears and smoothing the fearful paths along which they and their little ones traveled.

At the time this is written it is not definite as to when interment will take place, though this will be in the old Sandick sleeping place.

THE FUNERAL

Memorial services for Dr. Bentley, who passed away Tuesday morning, will be held at the home of Dr. J. M. Bentley Tuesday morning and the career of an active and useful life ended. The whole town and the thousands in Letcher county who knew him well and to whom he had given thro' his office, his strength and cordiality a strength and comfort to all die and comfort mourn his loss.

To add toward making him better known or to exploit his ability or patience as a ministering comfort, so far as this writer is concerned, would be futile and we, therefore, desist.

Dr. Bentley was born near where Neon is now and was a son of the late R. B. Bentley and Mrs. Sarah Holcomb Bentley. He was educated in the country schools and in early manhood engaged for some years in the profession of teaching. Following this he entered the University of Louisville, medical department, and while a large class graduated in 1906 with creditable honors. Returning to his native county, he began an active career in the practice of his profession, and soon became one of the leading physicians in the county. He married a daughter of Dr. I. L. Ison, Gibson, of Bottom Creek, and they have a large and highly creditable family. Several of these are grown and married. Besides these he leaves a heartbroken widow, an only son and a number of living brothers and one sister, Mrs. Margie Ready, residing at Metz, Mo. Besides these he leaves a large relationship all over Letcher county.

He deceased, about a week before his death, contracted a very severe sore throat, resulting it is said, from exposure in attending his patients. This lingered along till it resulted in septic laryngitis and finally into a condition of the throat bringing on his death. He was unconscious only a few hours before the final end came. Dr. Bentley had no enemies. He was loved and honored by all who knew him. The night he never so darkly foretold the weather was rough that he would go to the bed-side of the suffering and afflicted. It was never a question of money with him but always to be a messenger of relief, to be a helper in his ambition. To do his duty in his field of labor, to relieve the suffering when possible to do so, and render assistance to those who could not help themselves was a constant duty to him and from this is the reason he said that God would bless him. His loss to the town, the country and to his large circle of friends is irreparable.

In the year 1913, Dr. Bert C. Bach located in Whitesburg for the practice of medicine. When he came he found in the town and in the country Drs. Collins, Cook, Pursifull, Smith, Fitzpatrick, Potter, Ison and Dr. Bent. They say that he did not see now that he has thinned. Dr. Bach had vanished a year or so before. Now, of that band of noble men which Dr. Bach joined only he, Dr. Cook and Dr. Ison remain. The scythe of death has mercifully mowed the ranks! Many others rise up to serve as well and as faithfully.

Veteran Citizen Hurt

Uncle Robert Blair, a veteran citizen and well known minister of the Baptist church, accidentally got his nose cut off. Cuts off yesterday morning and split his nose nearly wide open. He was brought to Dr. Bach's office in the city where medical aid was given. His many friends trust nothing serious will result from the ugly wound. Mr. Blair is over seventy years old and resides in Whitesburg on his farm almost every day to say nothing of his activity as a minister and lawyer.

We have now on hand a nice line of blotters that will come in nice for candidates to use in their campaigns.

Whitesburg and the direct neighborhood has only three active practicing physicians remaining. Over 3000 people are to be served.

Dear Friend Nehemiah:

I enclose \$1.50 for Eagle, as I don't know how I stand. You well know that I have always been a friend to the Eagle and that I have been with it, had no Sunday clothes to wear as well as when it was prosperous. But I became crippled and could not read, and am still am, and thought I would just let it drop, but I find that I could not do so. Wishing you success in all your honest undertakings, I am,

Yours very truly,

T. A. Cook

NOT POLITICS BUT THE MAN

Now and then it will be our pleasure to sound an honest and earnest appeal to the citizens of Letcher county with reference to the election of its county officers which will soon be impending. Right here let us voice this true sentiment, as true as the Bible, that to be a Republican or Democrat means no qualification whatsoever for a county officer. It is the man that counts. Never in all the past has our county reached a period when bold, determined and conscientious officers were more needed to grapple with the problems that confront them now and in the future. We have had much development in the past and with its changes and varied conditions, but the near future has in store for us a diversity of problems that have never been met in the past and will be up for solution is the future. Will our people, in concrete and in purpose, the noblest and best in the land, arise in their might and power, expand their visions and seize the opportunity to guarantee their welfare and well-being in the coming four years? Neglect this one coming opportunity to make sure a set of good officers and the groans of you and your children will rise like incense to the open spaces and be futile in their effects. Think today, tomorrow and every day till the polis close and your opportunity ends. To arms, oh ye hosts of Israel!

Are you for Letcher county? Well, the Mountain Eagle is. If you answer yes, and mean it, then you cannot dodge, equivocate or mealy-mouth on your duty as an officer or citizen. We propound this question for a purpose and ask another. Is every good citizen, church and neighborhood receiving that protection and guarantee of its peace and rights that they should? It comes to us that often they are not. Law enforcement in a stern, equitable and fair way is the foundation upon which the stability, happiness, peace and prosperity of all our citizen depend.

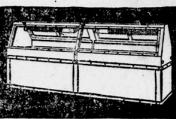

No reader of this paper could surmise the amount of free advertising that is solicited daily by big concerns who ought to know and do know better. It is a puny idea that some concerns and often people have of getting working people's good for nothing. Don't waste good postage or talk that could be used for useful ends.

Raymond Sizemore, about 20, confessed to a charge of manslaughter, that of shooting and killing his mother-in-law, Mrs. George Blair, on Rockhouse about ten months ago, and the jury reported a verdict of 21 years in the state penitentiary.

At press time this evening the jury in the Melvin Bentley case, charging murder of Charles Gibson last December, has failed to agree on a verdict.

Quite a number of felonies cases are put down for trial, many of which will be held in the week.

PIKEVILLE POLICEMAN KILLED

U. S. Commissioner Sid Trivett
Dangerously Shot

Word from Pikeville, received late this evening, says that Lon Robinson, Chief of Police of the city, has been shot and killed by U. S. Commissioner Sid Trivett. Trivett dangerously shot, his thigh bone being shattered. The details of the affair seem to be that a man named Little was bootlegging in a section of the town and the policeman, probably accompanied by Mr. Trivett, went to arrest and did arrest him, obtaining some whiskey about his person. About this time, it is reported, the Commissioner, thinking that he might be further arrested, just then Little drew another gun, shot the policeman dead-on the spot and fired at Mr. Trivett, hitting him in the leg with the above results.

Robinson was the rise of thirty years of age, is married and has two sons and two or three children. Mr. Trivett is a prominent attorney, and has been United States Commissioner for some time. He is dangerously shot.

Mrs. Fred Whitaker and two children, Claude, Bonnie Marie and J. P. of Amarillo, Texas, were delightful visitors at the Eagle office today. Mrs. Whitaker is a daughter of our good citizen Jerry Dixon, of

Badly Run-Down

For years ago I was very much run down," says Mrs. Olympia Kight, of Whitesburg. "I could not sleep well, and was weak and restless. I used to draw around the house with not enough energy to do my daily tasks. I had to ride a lot, and this kind of mind reacted on my health.

"I had often read of Cardui, so I thought try it after I had taken Cardui for a while.

"It was astonishing how much better I felt after taking Cardui; my appetite improved, and that awful dragging-down feeling was so much better.

"I was so much better that I began taking Cardui unthinkingly. I did not know that Cardui has been used by women for over 50 years.

A BEAUTIFUL POEM

Below is a beautiful poem written by Mrs. P. W. Slemp, of Millstone, our county, and dedicated to Mrs. Walter J. Kohler, wife of the present Governor of Wisconsin who is a life-long friend of Mrs. Slemp's.

It sets to me
There's none so sweet as thee;
And, if I hadn't been "Me"
I'd want to be thee.

Eyes of dew belong to thee;
And cheeks that fairies kissed
Into dimples. Then it seems the fairies missed
One of themselves, when the gods made thee.

So I sit and vision how it would be
To live in my dreams where I see,
Myself a glorious creature like thee—
O! I wonder how it would be!

I dream that the grace of Heaven is mine;
And awake to find that instead, it is thine,
And that is the way it really should be.
For only the gods could have made thee.

They assembled the charms of Heaven above
And put them together with a heart of love;
For they knew, that all that was in their power
Was none too sweet for my "Kohler Flower."

So I sit and I think of what I wanted to be,
And I turn and I rest my eyes on thee.

But instead of being sad, I really am glad

That the charm that I missed, the gods gave thee.

For, though I missed all those things I wanted to be
"Tis sweeter by far to see them in thee

But just sit and pretend that if I hadn't been "Me,"

I most surely, certainly would have been thee.

Dorothy Dennett Slemp.

The above poem is copied from one of the biggest and leading newspapers of the North-west.

ANCIENT ROCKS
GIVE UP PEARLS

Found in 25,000,000-Year-Old
Fossils

Berkeley, Calif.—Final verification has just been made of the fact that one pearl-like fossil found by geologists of the University of California recently in rock laid down about 25,000,000 years ago are real pearls conforming in shape to the modern variety, and having as their source mollusks related to the present day.

The pearls were found by Prof. N. E. Hinde and R. D. Russell, graduate students of the department of geology at Berkeley. They were uncovered while the university men were searching for fossils of the cretaceous period in the banks of Oak Run Creek, five miles northeast of Millville, and twenty miles from Redding, Calif.

In spite of their 25,000,000-year-old surroundings, the pearls are perfectly formed and clearly recognizable in the surrounding rock.

In order to check the first supposition that the formations were pearls, Russell ground one to reveal the nucleus and the microscope. The nucleus that probably formed the pearls is known as the Inoceramus, a distant relative of the present-day pearl-forming mollusks, which are incorrectly called oysters.

Russell explains that mention of the pearls is extremely rare in geological literature. Some 20 years ago one was reported from England, from the same mollusk and the same period in the earth's history. One was reported from the same mollusk in the lower Sacramento valley, though it is representative of a later period. One other has been reported from Tennessee.

In size the pearls found by the University of California may vary in size from one sixteenths to five-sixteenths of an inch in diameter. The shell of the mollusk found on the spot was originally about nine inches and six inches across.

America Leads Nations

Aircraft Production

Washington.—The United States led all countries in production of aircraft during 1928, according to figures made public by the Department of Commerce.

Great Britain, however, and probably France, were the United States in export of aeronautic products, the report disclosed.

Aircraft production in the United States, which relatively was estimated at 4,000, which, according to reliable estimates, the report said, France produced 1,840, Italy 475, Germany 200, and Switzerland 25.

According to experts, in this country last year totalled \$3,74,423, or virtually equal to the total aircraft exports from the United States in the same period in 1927. Britain's aeronautic exports totalled \$7,43,4700, as against \$5,52,2340 in 1927.

The total of aeronautic exports from France has not been reported but it is believed to have exceeded the total of \$8,00,000 for 1927.

Skeletons of Women

Found in Old Church

Berlin, Germany.—In the "Klosterkirche," the oldest church of Berlin, the workmen, under their ecclesiastical expert, Doctor Steinberger, discovered a subterranean tomb which is 18 feet below ground, and were identified as remains of the Eighteenth century. The skeletons were exhumed and buried elsewhere. Workmen were engaged in repairing the "Klosterkirche," built during the latter part of the Thirteenth century, has reportedly proved a treasure trove for historical relics.

Natural Refrigerator

Trousdale, Wash.—A lava dome 2,000 years old is used by farmers here as a natural cold storage unit. The temperature remains from 37 to 41 degrees the year round.

Excavation Rich

in Geology Finds

Canfield, N. J.—A complete excavation for the new city hall here has developed to an interesting center of prehistoric life, according to Dr. Lewis Pitcher.

Workmen at 70 feet below street level found the imprint of a strange leaf, and soon excavated more than 100 logs that were in the first stage of petrification.

Dr. Lewis Pitcher, geology professor in the University of Pennsylvania, investigated and said that the great leaf found after the waters of the glacial era receded over territory is now southeastern Pennsylvania and New Jersey. He claims that the shore line of America at this point during the glacial era was somewhere near Bryn Mawr, Penna.
